

CLTS-8

Looping & Terminating, Sequential Video Switcher

Compu-Video Systems

CVS

FEATURES:

- High quality Video Performance
- UL listed power supply
- Looping/Terminating:CLTS-8, CLS-8
- High quality Construction
- Terminating: CTS-8
- Made in USA

The **CLTS-8** is a high performance 8x1 composite video sequential switcher. The switcher is designed to handle up to eight high resolution color video sources and uses an external UL listed power supply to meet today's safety requirements. Switching occurs during the vertical interval to minimize monitor roll. Designed with advanced technology, the CLTS line of switchers are extremely reliable and can serve as the heart of any video system.

SPECIFICATIONS

Video:		Power Requirements:	
Input Impedance:	75 ohms Terminated	Power:	UL Listed 12VDC Power
	10k ohms Looping		Adapter (Supplied)
Output Impedance:	75 ohms	Input Voltage:	12 to 18VDC Isolated Ground
Max Video Input:	2vpp	Power Consumption:	1 Watt
Frequency Response:	15mHz +/- 0.7dB	Mechanical:	
Gain:	Unity +/-3%	Connectors:	BNC
Differential Gain:	<0.5%	Power Connector:	3.5mm Phono, Center +
Differential Phase Error:	<0.5 Degrees	Height:	1.70"
Max H Tilt:	<1%	Width:	8.70"
Max V Tilt:	<1%	Depth:	8.00"
Operation:			
Switches (4):	3 Position Toggle Switch		
Indicators (4):	LED Lamp For Each Input		
Sequence Interval:	Variable: 1 sec. To 90 sec.
